

TAKING MEASUREMENTS

****Please LOOK CLOSELY AT THE PICTURES to SEE HOW GARMENTS SHOULD FIT****
BEST POSITION FOR TAKING MEASUREMENTS : standing, head & tail up

Note: ****Important:** Incorrect length of back measurement will effect the girth band position **
If length of back is too long, male dogs will soil girth band when they urinate

1. Neck:

Circumference at widest point, base of neck
(as close to shoulder blades possible)

(coat will hang down if this measurement is too big)

2. Chest: Circumference at widest point of rib cage, behind front legs.

3. Back:

Measure from:
Base of neck/between shoulder blades, to dock of the tail

****with head and tail in upright position****

If length of back is TOO LONG –

- coat will hang over the tail
- male dogs will soil the girth band

Sizing: **Individual measurements, weight & breed are required**

/ SIZING CHART.....

SIZING CHART

COZY COATS FOR PETS : AVERAGE COATS MEASUREMENTS (all breeds)
